## ALPHA REAL CAPITAL: KEY HIRES FOLLOW RENEWABLES PLATFORM GROWTH

Alpha Real Capital (“Alpha”), the specialist manager of secure income real assets, appoints Ed Goldsworthy as Investment Director and Elliot Tegerdine as Technical Director as it looks to further expand renewables platform.

Alpha’s renewables platform enjoyed its most active year to date with £250m of completed investments across nine transactions taking AUM to £800m including commitments, with the portfolio set to produce over 500GWh of annual low carbon generation. Alpha’s renewables portfolio includes 165 assets diversified across wind, solar and hydro generation.

To support this sustained AUM growth, Alpha has made key hires to its renewables team. Ed Goldsworthy brings extensive investment experience in UK renewables and joins Alpha having held senior positions at Gresham House and FIM Services. Elliot Tegerdine joins to lead Alpha’s project delivery and operations, bringing over 20 years of professional experience delivering large power generation schemes and leading multi-disciplinary teams.

2022 is set to be another busy year for Alpha’s renewables platform, as it looks to launch its open-ended Diversified Renewables Income Fund (DRIF). DRIF will invest in UK onshore wind and solar opportunities, together with emerging sectors such as energy storage.

**Phillip Rose, CEO at Alpha Real Capital said:** “We are delighted to secure these senior hires as we continue to expand our secure income strategies in renewables in order to meet our clients’ investment objectives while helping to deliver the UK’s energy transition.”

**Will Morgan, Head of Renewables at Alpha Real Capital said:** "This is an exciting development as we look to meet growing investor demand for this sector by further expanding our capabilities."
